29 April 2026 (Wed)

2026 Singapore Budget Key Updates for Manufacturing

2026 Singapore Budget reflects its focus on innovation, competitiveness, and workforce resilience, areas that are highly relevant to the manufacturing sector.

Stronger Support for Local SMEs & Growth

Support for businesses to manage costs and expand globally, including higher grant support of up to 70% for SMEs and up to 50% for non-SMEs, enhanced Market Readiness Assistance (MRA) Grant, and improved Enterprise Financing Scheme options.

Harnessing AI as a Strategic Advantage

Support for AI adoption and digital transformation to improve productivity and competitiveness

Building a Resilient & Skilled Workforce

Measures to uplift lower-wage workers, update foreign worker policies, strengthen support for mid-career and senior employees, and equip the workforce with future-ready skills.

SPETA Spotlight

A Night of Celebration and Connection

On 25 February 2026 正月初九, SPETA was delighted to welcome over 400 members, partners, and industry friends to our annual Chinese New Year Dinner graced by Minister of State for the Ministry of Trade & Industry, and the Ministry of National Development Mr Alvin Tan. The evening was a vibrant celebration of our community, blending tradition, camaraderie, and shared aspirations for the year ahead.

Our heartfelt thanks also go to our event sponsors, Arts Fuzion and Maybank, whose generous contributions helped make the evening possible.

Beyond the festivities, the evening highlighted the generosity of our community. In partnership with KK Women's and Children's Hospital, we raised over \$89,000 for the Rare Disease Fund. Managed by the KKH Health Fund under SingHealth Fund and supported by the Ministry of Health (Singapore), the fund provides support to patients and families living with rare diseases.

Apr 29, 2026 (Wed) | 4:00PM - 6:00PM (Dinner After)

Annual General Meeting (AGM) 2026

Be part of the conversation shaping SPETA's next chapter. Stay informed on strategic developments, gain insights into upcoming initiatives, and connect with industry peers driving the future of the Precision Engineering sector.

Feb 3 -5, 2026 (Tue - Thu)

MD&M West 2026

Over three days, 7 Singapore companies at the Singapore Pavilion showcased solutions across MedTech, automation, design & manufacturing, plastics, and packaging. Highlights included medical devices, manufacturing processes, and automation technologies that reflect Singapore's capabilities in driving innovation. We thank everyone who visited the Singapore pavilion and engaged in meaningful conversations, and we look forward to building on these connections to shape the future of medical technology.

Feb 4 -6, 2026 (Wed - Fri)

Asia Photonics Expo 2026

SPETA proudly hosts the Singapore Pavilion, featuring 17 local companies demonstrating expertise in optical communications, precision optics, lasers, semiconductors, infrared, sensing, and quantum technologies. Across the show, 400 exhibitors from China, Asia, USA, and Europe are presenting cutting-edge solutions, fostering collaboration, and opening business opportunities.

Cohort 1 Testimonial

"I found the Business Model Canvas in Session 1 extremely valuable. It enabled me to validate business ideas and develop a holistic view of enhancing customer experience. The practical exercises encouraged critical thinking and demonstrated how strategy impacts both operations and people. The insights gained have already influenced how I approach business planning and organisational growth".

Joshua Lam
Onn Wah Precision Machining

Welcome New Members!

We are pleased to welcome the latest companies joining the SPETA community. Their expertise and contributions strengthen our precision engineering network and foster collaboration across the industry.

ELH TECH (S) PTE LTD

ELH Tech (S) Pte Ltd is a Singapore-based engineering and additive manufacturing company. It provides 3D printing and additive manufacturing services, including rapid prototyping, reverse engineering, and product design for both polymers and metals. The company also supplies industrial-grade AM equipment and partners with clients across aerospace, semiconductor, oil & gas, and precision engineering sectors.

Kah Lam Hardware Engineering Pte Ltd

Kah Lam offers precision machining and fabrication services, including CNC milling, turning, 5-axis machining, and surface grinding. They produce engineered products such as flanges, fittings, adapters, pipe nipples, spectacle blinds, and custom metal components. The company also provides fabrication, assembly, and installation solutions for industrial projects.

Become a Member Today!

SPETA connects SMEs and MNCs across Singapore's precision engineering sector, offering exclusive opportunities to grow, network, and enhance business performance.

TRANSFORMING TALENT FOR A FUTURE-READY WORKFORCE

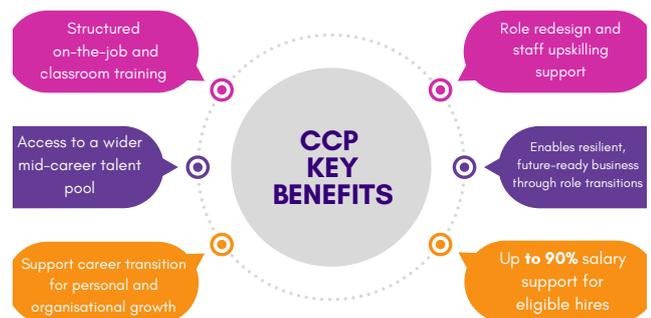

The Career Conversion Programme (CCP) by Workforce Singapore supports companies in reskilling mid-career individuals. It also supports individuals looking to switch careers and remain relevant in a changing job market.

CCP SUPPORTS RESKILLING AND HIRING

CCP offers two main pathways

Helps companies build a future-ready workforce through reskilling of mid-career new hires and existing employees.

WORK WITH SPETA TO ACCESS CCP SUPPORT

SPETA is a Programme Partner appointed by Workforce Singapore (WSG). We work closely with companies in the Precision Engineering and Advanced Manufacturing sectors to support their workforce transformation efforts.

- Advanced Manufacturing Engineer / Assistant Engineer (PMET-level)**
- Advanced Manufacturing Operator (Rank-and-File)**
- Job Redesign Reskilling (JRR)**

Whether you are hiring mid-career individuals or upskilling existing employees, SPETA guides you through the entire CCP process – from job role scoping and training design to application submission and progress tracking.

By partnering with SPETA, your company gains access to government support while building a future-ready, skilled workforce.
